ICT409
Two Applied Computing Project Reports (Each of them should contains 200 to 500 words)

Report 1- Write the 200 to 500 words report on what you have learnt in

- Information Technology Fundamentals (ICT101+102)
    - Computer Applications and Operations(ICT108)
    - Applied Programming
    - Program Project(ICT103)

Report 2- Write the 200 to 500 words report on what you have learnt in

- Systems Analysis and Programs (ICT105)
- Software Engineering(ICT106)
- Business Information Systems• Organisational Behaviour(ICT107)

ICT410
Major Thesis Project which is A 5000– 7000 word research project in a Computer Science or Information Technology discipline area. In this project the candidate will need to demonstrate they can apply the knowledge learnt in Year 1 to 3

- Information Systems Principles and Networking(ICT202)
- Information Systems, Analysis and Design(ICT203)
- Advanced Programming (ICT204)
- Project Work(ICT205)

The project report should contain 5000 to 6000 words of how you pursue the study in Programming & Networking should be described.

The project should contain sample programming, networking task, job procedures etc of the topics of your choices.
