## About TradeSET

TradeSET is a free service provided by Trades Recognition Australia (TRA) to help you understand how trade occupations operate in Australia and is part of the process for applicants applying for the:

1. 457 Skills Assessment Program (eligible applicants seeking skills assessments for temporary migration or to facilitate access to occupational licensing)
2. Offshore Skills Assessment Program (eligible applicants seeking skills assessments for permanent migration)
3. The Trades Recognition Service (eligible applicants seeking skills assessments for employment purposes or to facilitate access to occupational licensing); or
4. TradeSET may also be used as a guide for [Job Ready Program](#) participants

Your TradeSET report will also show any additional training you may require to work in Australia.

Skills assessments for the 457 Skills Assessment Program, the Offshore Skills Assessment Program and the Trades Recognition Service (TRS) are conducted by registered training organisations (RTOs) approved by TRA. Please read the relevant [457 Skills Assessment Program Applicant Guidelines](#), [Offshore Skills Assessment Program Applicant Guidelines](#) or [Trades Recognition Service Guidelines](#) for information, including eligibility requirements and how to locate a TRA-approved RTO.

Your TradeSET report must be given to the TRA-approved RTO conducting your skills assessment.

### Important Notes:

The TradeSET report is not a formal skills assessment or a qualification. Persons applying for skilled migration are required to meet all requirements of the Department of Immigration and Border Protection (DIBP). This includes English language requirements and any other requirements as directed by DIBP. Further information about migration requirements can be found at <http://www.border.gov.au/>.

## Skills Report

|  |         |
|--|---------|
| Mandatory Skills                               | Skilled |
| Work in a team.                                | Yes     |
| Use furniture making tools.                    | Yes     |
| Work in an environmentally sustainable way.    | Yes     |
| Communicate well with others in the workplace. | Yes     |
| Make measurements and calculations.            | Yes     |
| Follow written procedures at work.             | Yes     |

|  |         |
|--|---------|
| Elective Skills  | Skilled |
| Provide customer service.  | No      |
| Work safely in the furniture industry.                                       | No      |
| Arrange work which needs to be carried out on site correctly.                | No      |
| Use structured problem solving tools.  | No      |
| Work within the requirements of a permit.                                    | No      |
| Do work based on the issued permit.  | No      |
| Use hazardous goods and substances through knowledge of codes and standards. | No      |
| Work effectively in a changing workplace.                                    | No      |
| Apply quick changeover procedures.   | No      |
| Apply Just in Time procedures.   | No      |
| Work in a cost effective way.  | No      |
| Apply 5S procedures.   | No      |
| Monitor process capability.  | No      |
| Apply quality standards.   | No      |
| Use planning software.   | No      |
| Use SCADA systems.   | No      |
| Undertake root cause analysis.   | No      |
| Support proactive maintenance of plant and equipment.                        | No      |
| Prepare surfaces for finishing.  | No      |
| Use a spray gun.   | No      |
| Put furnishing components together.  | No      |

| Elective Skills   | Skilled |
|---|---------|
| Find the right hardware.  | No      |
| Join solid timber.  | No      |
| Hand make timber joints.  | No      |
| Use and maintain static machines.   | No      |
| Apply manufactured board conversion techniques.                             | No      |
| Use clamping machines.  | No      |
| Build chairs and couch frames.  | No      |
| Build furniture using leg and rail method.                                  | No      |
| Produce curved furniture from manufactured board.                           | No      |
| Produce curved furniture from solid wood.                                   | No      |
| Build custom furniture.   | No      |
| Install furnishing products.  | No      |
| Apply decorative surfaces to furniture.                                     | No      |
| Choose timber for furniture making.   | No      |
| Produce computer-aided production drawings.                                 | No      |
| Prepare cutting list from plans and job specifications.                     | No      |
| Measure and draw site layout for products.                                  | No      |
| Use sawing machines.  | No      |
| Use drilling machines.  | No      |
| Use joining machines.   | No      |
| Use planing and finishing machines.   | No      |
| Use multi-head planing and moulding machines.                               | No      |
| Use routing and shaping machines.   | No      |
| Use wood turning lathes.  | No      |
| Use mechanical lathes.  | No      |
| Use automated edge banding machines.  | No      |
| Make synthetic solid surface products.                                      | No      |
| Use computer numerically controlled (CNC) sizing machines.                  | No      |
| Use computer numerically controlled (CNC) machining and processing centres. | No      |
| Use cutting tools.  | No      |
| Build jigs and fixtures.  | No      |
| Coordinate the installation of products on site.                            | No      |
| Test products to specifications.  | No      |
| Interpret and use workplace information.                                    | No      |
| Match style and materials to customer orders.                               | No      |
| Estimate and cost job.  | No      |
| Get ready for a cabinet installation.                                       | No      |
| Work out the job sequence for a kitchen or bathroom project.                | No      |
| Check and measure fit of cabinets.  | No      |
| Adjust cabinets and components on site.                                     | No      |
| Build built in cabinets.  | No      |
| Install fitted cabinets and components.                                     | No      |
