

TradeSET Report

Name:	Soe Hlaing
TradeSET Number:	TS254325
My Trade:	Electrical Linesworker
Specialisation:	Electrical Linesworker - Transmission

About TradeSET

TradeSET is a free service provided by Trades Recognition Australia (TRA) to help you understand how trade occupations operate in Australia and is part of the process for applicants applying for the:

1. 457 Skills Assessment Program (eligible applicants seeking skills assessments for temporary migration or to facilitate access to occupational licensing)
2. Offshore Skills Assessment Program (eligible applicants seeking skills assessments for permanent migration)
3. The Trades Recognition Service (eligible applicants seeking skills assessments for employment purposes or to facilitate access to occupational licensing); or
4. TradeSET may also be used as a guide for [Job Ready Program](#) participants

Your TradeSET report will also show any additional training you may require to work in Australia.

Skills assessments for the 457 Skills Assessment Program, the Offshore Skills Assessment Program and the Trades Recognition Service (TRS) are conducted by registered training organisations (RTOs) approved by TRA. Please read the relevant [457 Skills Assessment Program Applicant Guidelines](#), [Offshore Skills Assessment Program Applicant Guidelines](#) or [Trades Recognition Service Guidelines](#) for information, including eligibility requirements and how to locate a TRA-approved RTO.

Your TradeSET report must be given to the TRA-approved RTO conducting your skills assessment.

To access information about occupational licensing in Australia please visit [Pathway to occupational licensing for overseas-trained tradespeople](#).

Important Notes:

The TradeSET report is not a formal skills assessment or a qualification. Persons applying for skilled migration are required to meet all requirements of the Department of Immigration and Border Protection (DIBP). This includes English language requirements and any other requirements as directed by DIBP. Further information about migration requirements can be found at <http://www.border.gov.au/>.

TradeSET Report

Name:	Soe Hlaing
TradeSET Number:	TS254325
My Trade:	Electrical Linesworker
Specialisation:	Electrical Linesworker - Transmission

Details	
Gender:	Male
Date of Birth:	22/02/1967
City:	Myitkyina
Passport Number:	1156789
Country where I live:	Burma (Myanmar)
Country of passport issue:	Burma (Myanmar)
Country of Training:	Burma (Myanmar)
Skills Assessment Program:	457 or Offshore Skills Assessment Program
Finalisation Date:	25/09/2015

TradeSET Report

Name:	Soe Hlaing
TradeSET Number:	TS254325
My Trade:	Electrical Linesworker
Specialisation:	Electrical Linesworker - Transmission

Skills Report

Mandatory Skills	Skilled
License to perform dogging.	Yes
License to perform rigging - basic level.	Yes
Gain a licence to use a boom-type elevating work platform (boom length 11 metres or more).	Yes
Use workplace health and safety rules and practices in the workplace.	Yes
Put together and take apart utilities industry parts.	Yes
Solve problems in d.c. circuits.	Yes
Fix and secure electrotechnology equipment.	Yes
Use drawings, diagrams, standards and codes correctly as part of the job.	Yes
Fix problems in electromagnetic devices and related circuits.	Yes
Solve problems in low voltage a.c. circuits.	Yes
Work in a way that does not harm the environment and is not wasteful.	Yes
Safely use tools and machines near live electrical conductors and equipment.	Yes
Working safely near live electrical parts and components.	Yes
Install and maintain poles, structures and overhead conductors and cables.	Yes
Set up transmission structures and related parts and components.	Yes
Make sure transmission structures and related parts are in good working order.	Yes
Set up and look after transmission overhead conductors and cables.	Yes
Check and test transmission overhead structures and electrical parts.	Yes
Test and check transmission overhead installations are in correct working order.	Yes

Elective Skills	Skilled
License to use a personnel and materials hoist.	Yes
License to use a materials hoist.	Yes
License to perform rigging - intermediate level.	Yes
License to erect, alter and dismantle scaffolding - basic level.	Yes
License to set up, change and take down scaffolding - intermediate level.	Yes
Drive medium rigid vehicle.	Yes
Drive a heavy rigid vehicle.	Yes

Elective Skills	Skilled
Gain a licence to use a vehicle loading crane (capacity of 10 metre tonnes and above).	Yes
Gain a licence to use a forklift truck.	Yes
Gain a licence to use a bridge and gantry crane.	Yes
Gain a licence to use a slewing mobile crane (up to 20 tonnes).	Yes
Gain a licence to use a slewing mobile crane (up to 20 tonnes).	Yes
Licence to operate a slewing mobile crane (over 100 tonnes).	Yes
Use and look after chainsaws.	Yes
Lay wires, cables and terminate accessories for extra low voltage (ELV) circuits.	Yes
Close off cables, cords and accessories for low voltage circuits.	Yes
Check overhead poles, structures and electrical parts are working.	Yes
Look after overhead energised low voltage conductors and cables.	Yes
Set up electrical equipment for network connection.	Yes
Look after the network infrastructure and electrical equipment.	Yes
Do a low voltage field switching task at the scheduled time.	Yes
Do a high voltage field switching task at the scheduled time.	Yes
Set up and look after poles, structures and other equipment.	Yes
Set up and look after the power system for public lighting.	Yes
Set up and look after low voltage overhead services.	Yes
Check poles and structures to check and treat them.	Yes
Set up a low voltage mobile generator (LV Genset).	Yes
Make sure power system substation switching tasks occur in a timely manner.	Yes
Make sure trees and plants do not interfere with safe linework tasks.	Yes

Skills Assessment Plan

Australian Qualification

Code:	UET30512
Name:	ESI - Power Systems - Transmission Overhead

My Skills and Evidence

Mandatory Skills	Tasks
<p>Work: License to perform dogging. Unit of Competency Code: CPCCLDG3001A Unit Title: License to perform dogging</p>	<ul style="list-style-type: none"> - Shut down job and clean up. - Perform task. - Prepare site and equipment. - Select and inspect equipment. - Plan job. - Plan job. - Select and inspect equipment. - Prepare site and equipment. - Perform task. - Shut down job and clean up.
<p>Work: License to perform rigging - basic level. Unit of Competency Code: CPCCLRG3001A Unit Title: License to perform rigging - basic level</p>	<ul style="list-style-type: none"> - Dismantle structures and plant. - Erect structures and plant. - Plan job. - Select and inspect equipment. - Set up task. - Plan job. - Select and inspect equipment. - Set up task. - Erect structures and plant. - Dismantle structures and plant.
<p>Work: Gain a licence to use a boom-type elevating work platform (boom length 11 metres or more). Unit of Competency Code: TLILIC2005A Unit Title: Licence to operate a boom-type elevating work platform (boom length 11 metres or more)</p>	<ul style="list-style-type: none"> - Plan work - Conduct routine checks - Set up elevating work platform - Operate elevating work platform - Shut down and secure elevating work platform

Mandatory Skills	Tasks
<p>Work: Use workplace health and safety rules and practices in the workplace. Unit of Competency Code: UEENEEE101A Unit Title: Apply Occupational Health and Safety regulations, codes and practices in the workplace</p>	<ul style="list-style-type: none"> - Follow workplace procedures for hazard identification and risk control - Apply safe working practices. - Prepare to enter a work area
<p>Work: Put together and take apart utilities industry parts. Unit of Competency Code: UEENEEE102A Unit Title: Fabricate, assemble and dismantle utilities industry components</p>	<ul style="list-style-type: none"> - Fabricate utilities industry components. - Dismantle and assemble utilities industry apparatus. - Prepare for dismantling, assembling and fabrication work.
<p>Work: Solve problems in d.c. circuits. Unit of Competency Code: UEENEEE104A Unit Title: Solve problems in d.c. circuits</p>	<ul style="list-style-type: none"> - Complete work and document problem solving activities. - Solve d.c. circuit problems. - Prepare to work on d.c. electrical circuits.
<p>Work: Fix and secure electrotechnology equipment. Unit of Competency Code: UEENEEE105A Unit Title: Fix and secure electrotechnology equipment</p>	<ul style="list-style-type: none"> - Install fixing and support devices. - Complete fixing and support work. - Prepare to fix and secure equipment.
<p>Work: Use drawings, diagrams, standards and codes correctly as part of the job. Unit of Competency Code: UEENEEE107A Unit Title: Use drawings, diagrams, schedules, standards, codes and specifications</p>	<ul style="list-style-type: none"> - Prepare to use compliance standards, codes and specifications. - Use drawings, diagrams, schedules and manuals to convey information and ideas. - Use drawings, diagrams, schedules and manuals to obtain job information. - Prepare to use drawings, diagrams, schedules and manuals.
<p>Work: Fix problems in electromagnetic devices and related circuits. Unit of Competency Code: UEENEED101A Unit Title: Solve problems in electromagnetic devices and related circuits</p>	<ul style="list-style-type: none"> - Complete work and document problem solving activities. - Solve electromagnetic devices/circuit problems. - Prepare to work on electromagnetic devices and circuits.
<p>Work: Solve problems in low voltage a.c. circuits. Unit of Competency Code: UEENEED102A Unit Title: Solve problems in low voltage a.c. circuits</p>	<ul style="list-style-type: none"> - Complete work and document problem solving activities. - Solve low voltage a.c. circuit problems. - Prepare to solve low voltage a.c. circuit problems.

Mandatory Skills	Tasks
<p>Work: Work in a way that does not harm the environment and is not wasteful.</p> <p>Unit of Competency Code: UETTDREL11A</p> <p>Unit Title: Apply sustainable energy and environmental procedures</p>	<ul style="list-style-type: none"> - Prepare to implement environmental and sustainable energy procedures - Carry out environmental and sustainable energy procedures - Complete the environmental and sustainable energy procedures
<p>Work: Safely use tools and machines near live electrical conductors and equipment.</p> <p>Unit of Competency Code: UETTDREL12A</p> <p>Unit Title: Operate plant and equipment near live electrical conductors and apparatus</p>	<ul style="list-style-type: none"> - Prepare to operate plant and equipment near energised and exposed electrical conductors/apparatus - Carry out the operation of plant and equipment near energised and exposed electrical conductors/apparatus - Complete the operation of plant and equipment near energised and exposed electrical conductors/apparatus
<p>Work: Working safely near live electrical parts and components.</p> <p>Unit of Competency Code: UETTDREL16A</p> <p>Unit Title: Working safely near live electrical apparatus</p>	<ul style="list-style-type: none"> - Prepare to work safely near live electrical apparatus as electrical worker - Carry out the work safely near live electrical apparatus as electrical worker. - Complete the work safely near live electrical apparatus as electrical worker.
<p>Work: Install and maintain poles, structures and overhead conductors and cables.</p> <p>Unit of Competency Code: UETTDREL54A</p> <p>Unit Title: Install and maintain poles, structures and overhead conductors and cables</p>	<ul style="list-style-type: none"> - Prepare for the installation and maintenance of overhead conductors and cables used on poles and/or structures - Carry out installation and maintenance of overhead conductors and cables used on poles and/or structures - Complete the installation and maintenance of overhead conductors and cables used on poles and/or structures

Mandatory Skills	Tasks
<p>Work: Set up transmission structures and related parts and components. Unit of Competency Code: UETTD RTP26A Unit Title: Install transmission structures and associated hardware</p>	<ul style="list-style-type: none"> - Prepare to erect transmission towers and associated hardware - Carry out the erection of transmission towers and associated hardware - Complete the erection of transmission towers and associated hardware
<p>Work: Make sure transmission structures and related parts are in good working order. Unit of Competency Code: UETTD RTP27A Unit Title: Maintain transmission structures and associated hardware</p>	<ul style="list-style-type: none"> - Prepare to maintain transmission towers and associated hardware - Carry out the maintenance of transmission towers and associated hardware - Complete the maintenance of transmission towers and associated hardware
<p>Work: Set up and look after transmission overhead conductors and cables. Unit of Competency Code: UETTD RTP29A Unit Title: Install and maintain transmission overhead conductors and cables</p>	<ul style="list-style-type: none"> - Prepare for the installation and maintenance of overhead conductors and cables used on towers - Carry out installation and maintenance of overhead conductors and cables used on towers - Complete the installation and maintenance of overhead conductors and cables used on towers
<p>Work: Check and test transmission overhead structures and electrical parts. Unit of Competency Code: UETTD RTP30A Unit Title: Inspect transmission overhead structures and electrical apparatus</p>	<ul style="list-style-type: none"> - Prepare for the inspection of overhead structures and electrical apparatus used on towers - Carry out inspection of overhead structures and electrical apparatus used on towers - Complete the inspection of overhead structures and electrical apparatus used on towers

Mandatory Skills	Tasks
<p>Work: Test and check transmission overhead installations are in correct working order. Unit of Competency Code: UETTDRTTP99A Unit Title: Test and verify transmission overhead installations</p>	<ul style="list-style-type: none"> - Prepare to visually inspect, verify and replace or repair overhead transmission installations - Carry out visual inspection verification and replacement or repair of overhead transmission installations - Complete the visual inspection verification and replacement or repair of overhead transmission installations.

Evidence I can provide

- Qualification / Certificate

Elective Trade Skills	Tasks
<p>Work: License to use a personnel and materials hoist. Unit of Competency Code: CPCCLHS3001A Unit Title: License to operate a personnel and materials hoist</p>	<ul style="list-style-type: none"> - Plan work. - Conduct routine checks. - Conduct hoist operations. - Shut down and secure hoist. - Plan work. - Conduct routine checks. - Conduct hoist operations. - Shut down and secure hoist.
<p>Work: License to use a materials hoist. Unit of Competency Code: CPCCLHS3002A Unit Title: License to operate a materials hoist</p>	<ul style="list-style-type: none"> - Shut down and secure hoist. - Plan work. - Conduct routine checks. - Conduct hoist operations. - Plan work. - Conduct routine checks. - Conduct hoist operations. - Shut down and secure hoist.
<p>Work: License to perform rigging - intermediate level. Unit of Competency Code: CPCCLRG3002A Unit Title: License to perform rigging - intermediate level</p>	<ul style="list-style-type: none"> - Dismantle structures and plant. - Plan job. - Select and inspect equipment. - Set up tasks. - Erect structures and plant. - Plan job. - Select and inspect equipment. - Set up tasks. - Erect structures and plant. - Dismantle structures and plant.

Elective Trade Skills	Tasks
<p>Work: License to erect, alter and dismantle scaffolding - basic level. Unit of Competency Code: CPCCLSF2001A Unit Title: License to erect, alter and dismantle scaffolding - basic level</p>	<ul style="list-style-type: none"> - Dismantle scaffold and scaffold equipment. - Erect scaffold and scaffold equipment. - Set up task - Plan job. - Select and inspect plant and equipment. - Plan job. - Select and inspect plant and equipment. - Set up task - Erect scaffold and scaffold equipment. - Dismantle scaffold and scaffold equipment.
<p>Work: License to set up, change and take down scaffolding - intermediate level. Unit of Competency Code: CPCCLSF3001A Unit Title: License to erect, alter and dismantle scaffolding - intermediate level</p>	<ul style="list-style-type: none"> - Dismantle scaffold and scaffolding equipment. - Erect scaffold and scaffolding equipment. - Set up task. - Plan job. - Select and inspect equipment. - Plan job. - Select and inspect equipment. - Set up task. - Erect scaffold and scaffolding equipment. - Dismantle scaffold and scaffolding equipment.
<p>Work: Drive medium rigid vehicle. Unit of Competency Code: TLIC3003A Unit Title: Drive medium rigid vehicle</p>	<ul style="list-style-type: none"> - Drive the medium rigid vehicle - Monitor traffic and road conditions - Monitor and maintain vehicle performance
<p>Work: Drive a heavy rigid vehicle. Unit of Competency Code: TLIC3004A Unit Title: Drive heavy rigid vehicle</p>	<ul style="list-style-type: none"> - Drive the heavy rigid vehicle - Monitor traffic and road conditions - Monitor and maintain vehicle performance
<p>Work: Gain a licence to use a vehicle loading crane (capacity of 10 metre tonnes and above). Unit of Competency Code: TLILIC0012A Unit Title: Licence to operate a vehicle loading crane (capacity 10 metre tonnes and above)</p>	<ul style="list-style-type: none"> - Plan work - Conduct routine checks - Set up crane - Transfer loads - Shut down and secure crane

Elective Trade Skills	Tasks
<p>Work: Gain a licence to use a forklift truck. Unit of Competency Code: TLILIC2001A Unit Title: Licence to operate a forklift truck</p>	<ul style="list-style-type: none"> - Plan work - Conduct routine checks - Shift load - Shut down and secure forklift truck
<p>Work: Gain a licence to use a bridge and gantry crane. Unit of Competency Code: TLILIC3003A Unit Title: Licence to operate a bridge and gantry crane</p>	<ul style="list-style-type: none"> - Plan work - Conduct routine checks - Transfer loads - Shut down and secure crane
<p>Work: Gain a licence to use a slewing mobile crane (up to 20 tonnes). Unit of Competency Code: TLILIC3008A Unit Title: Licence to operate a slewing mobile crane (up to 20 tonnes)</p>	<ul style="list-style-type: none"> - Plan work - Conduct routine checks - Set up crane - Transfer load - Mobile load - Shut down and secure crane
<p>Work: Gain a licence to use a slewing mobile crane (up to 20 tonnes). Unit of Competency Code: TLILIC4009A Unit Title: Licence to operate a slewing mobile crane (up to 60 tonnes)</p>	<ul style="list-style-type: none"> - Plan work - Conduct routine checks - Set up crane - Transfer load - Mobile load - Shut down and secure crane
<p>Work: Licence to operate a slewing mobile crane (over 100 tonnes). Unit of Competency Code: TLILIC4011A Unit Title: Licence to operate a slewing mobile crane (over 100 tonnes)</p>	<ul style="list-style-type: none"> - Plan work - Conduct routine checks - Set up crane - Transfer load - Mobile load - Shut down and secure crane
<p>Work: Use and look after chainsaws. Unit of Competency Code: AHCARB205A Unit Title: Operate and maintain chainsaws</p>	<ul style="list-style-type: none"> - Recognise and apply workplace safety procedures - Check and maintain chainsaw - Operate chainsaw - Complete and check chainsaw operation
<p>Work: Lay wires, cables and terminate accessories for extra low voltage (ELV) circuits. Unit of Competency Code: UEENEEE108A Unit Title: Lay wiring, cabling and terminate accessories for extra-low voltage (ELV) circuits</p>	<ul style="list-style-type: none"> - Complete and report work activities. - Lay wiring/cabling and connect accessories for extra-low voltage circuits. - Prepare to lay wiring/cabling and connect accessories for extra-low voltage circuits.

Elective Trade Skills	Tasks
<p>Work: Close off cables, cords and accessories for low voltage circuits. Unit of Competency Code: UEENEEG106A Unit Title: Terminate cables, cords and accessories for low voltage circuits</p>	<ul style="list-style-type: none"> - Test terminated cables and cords - Terminate cables, cords and conductors - Prepare to terminate cables, cords and conductors
<p>Work: Check overhead poles, structures and electrical parts are working. Unit of Competency Code: UETTDRDP11A Unit Title: Inspect overhead poles-structures and electrical apparatus</p>	<ul style="list-style-type: none"> - Prepare for the inspection of overhead structures and electrical apparatus used on poles and/or structures - Carry out inspection of overhead structures and electrical apparatus used on poles and/or structures - Complete the inspection of overhead structures and electrical apparatus used on poles and/or structures
<p>Work: Look after overhead energised low voltage conductors and cables. Unit of Competency Code: UETTDRDP12A Unit Title: Maintain overhead energised low voltage conductors and cables</p>	<ul style="list-style-type: none"> - Prepare for the maintenance of overhead energised LV conductors and cables. - Carry out maintenance of overhead energised LV conductors and cables. - Complete the maintenance of overhead energised LV conductors and cables.
<p>Work: Set up electrical equipment for network connection. Unit of Competency Code: UETTDRIS41A Unit Title: Install network infrastructure electrical equipment</p>	<ul style="list-style-type: none"> - Prepare for the installation of electrical equipment (network infrastructure) - Carry out installation of electrical equipment (network infrastructure) - Complete the installation of electrical equipment (network infrastructure)
<p>Work: Look after the network infrastructure and electrical equipment. Unit of Competency Code: UETTDRIS42A Unit Title: Maintain network infrastructure electrical equipment</p>	<ul style="list-style-type: none"> - Prepare for the maintenance of electrical equipment (network infrastructure) - Carry out maintenance of electrical equipment (network infrastructure) - Complete the maintenance of electrical equipment (network infrastructure)

Elective Trade Skills	Tasks
<p>Work: Do a low voltage field switching task at the scheduled time.</p> <p>Unit of Competency Code: UETTDRIS43A</p> <p>Unit Title: Perform low voltage field switching operation to a given schedule</p>	<ul style="list-style-type: none"> - Prepare for the LV field switching to a given schedule - Carry out LV field switching to a given schedule - Complete the LV field switching to a given schedule
<p>Work: Do a high voltage field switching task at the scheduled time.</p> <p>Unit of Competency Code: UETTDRIS44A</p> <p>Unit Title: Perform HV field switching operation to a given schedule</p>	<ul style="list-style-type: none"> - Prepare to undertake HV switching procedures to a given schedule - Carry out HV switching procedures to a given schedule - Complete HV switching procedures to a given schedule
<p>Work: Set up and look after poles, structures and other equipment.</p> <p>Unit of Competency Code: UETTDRIS52A</p> <p>Unit Title: Install and maintain poles, structures and associated hardware</p>	<ul style="list-style-type: none"> - Prepare for the installation and maintenance of poles and/or structures and associated hardware - Carry out installation and maintenance of poles and/or structures and associated hardware - Complete the installation and maintenance of poles and/or structures and associated hardware.
<p>Work: Set up and look after the power system for public lighting.</p> <p>Unit of Competency Code: UETTDRIS53A</p> <p>Unit Title: Install and maintain power system public lighting</p>	<ul style="list-style-type: none"> - Prepare for the installation and maintenance of public lighting systems - Carry out installation and maintenance of public lighting systems - Complete the installation and maintenance of public lighting systems
<p>Work: Set up and look after low voltage overhead services.</p> <p>Unit of Competency Code: UETTDRIS56A</p> <p>Unit Title: Install and maintain low voltage overhead services</p>	<ul style="list-style-type: none"> - Prepare for the installation and maintenance of LV overhead services and associated equipment - Carry out installation and maintenance of LV overhead services and associated equipment - Complete the installation and maintenance of LV overhead services and associated equipment

Elective Trade Skills	Tasks
<p>Work: Check poles and structures to check and treat them.</p> <p>Unit of Competency Code: UETTDRIS57A</p> <p>Unit Title: Conduct visual checking and treatment of power system poles and structures</p>	<ul style="list-style-type: none"> - Prepare to perform visual checking and treatment of poles and structures - Carry out visual checking and treatment of poles and structures - Complete the visual checking and treatment of poles and structures
<p>Work: Set up a low voltage mobile generator (LV Genset).</p> <p>Unit of Competency Code: UETTDRIS61A</p> <p>Unit Title: Install mobile generation set for synchronised LV Genset</p>	<ul style="list-style-type: none"> - Prepare/plan to install mobile generation set for synchronised genset LV - Carry out the installation of mobile generation set for synchronised genset LV - Complete the installation of mobile generation set for synchronised genset LV
<p>Work: Make sure power system substation switching tasks occur in a timely manner.</p> <p>Unit of Competency Code: UETTDRSB39A</p> <p>Unit Title: Perform power system substation switching operation to a given schedule?</p>	<ul style="list-style-type: none"> - Prepare for substation switching to a given schedule - Carry out substation switching to a given schedule - Complete substation switching to a given schedule
<p>Work: Make sure trees and plants do not interfere with safe linework tasks.</p> <p>Unit of Competency Code: UETTDRVC29A</p> <p>Unit Title: Control vegetation whilst performing linework</p>	<ul style="list-style-type: none"> - Prepare to control vegetation - Carry out vegetation control - Complete vegetation control

Evidence I can provide

- Qualification / Certificate

Skills and Evidence I may need
