ASSIGNMENT (2)

Question No	Questions
1	What is computer network?
2	What is the function of wireless network card?
3	Explain server operation system
4	Describe the types of data flow.
5	Describe the organization of internet
6	Explain OSI model
7	How do you understand IP address? Explain with diagram.
8	Describe the modulation of signal
9	Describe line coding and decoding
10	Explain ASK with diagram
11	What is phase shift keying?
12	Explain frequency modulation
13	What are the modes of propagation?
14	Explain frequency hopping spread spectrum
