

TradeSET Report

Name:	Myint Thu
TradeSET Number:	TS254341
My Trade:	Small Engine Mechanic
Specialisation:	Small Engine Mechanic

About TradeSET

TradeSET is a free service provided by Trades Recognition Australia (TRA) to help you understand how trade occupations operate in Australia and is part of the process for applicants applying for the:

1. 457 Skills Assessment Program (eligible applicants seeking skills assessments for temporary migration or to facilitate access to occupational licensing)
2. Offshore Skills Assessment Program (eligible applicants seeking skills assessments for permanent migration)
3. The Trades Recognition Service (eligible applicants seeking skills assessments for employment purposes or to facilitate access to occupational licensing); or
4. TradeSET may also be used as a guide for [Job Ready Program](#) participants

Your TradeSET report will also show any additional training you may require to work in Australia.

Skills assessments for the 457 Skills Assessment Program, the Offshore Skills Assessment Program and the Trades Recognition Service (TRS) are conducted by registered training organisations (RTOs) approved by TRA. Please read the relevant [457 Skills Assessment Program Applicant Guidelines](#), [Offshore Skills Assessment Program Applicant Guidelines](#) or [Trades Recognition Service Guidelines](#) for information, including eligibility requirements and how to locate a TRA-approved RTO.

Your TradeSET report must be given to the TRA-approved RTO conducting your skills assessment.

Important Notes:

The TradeSET report is not a formal skills assessment or a qualification. Persons applying for skilled migration are required to meet all requirements of the Department of Immigration and Border Protection (DIBP). This includes English language requirements and any other requirements as directed by DIBP. Further information about migration requirements can be found at <http://www.border.gov.au/>.

TradeSET Report

Name:	Myint Thu
TradeSET Number:	TS254341
My Trade:	Small Engine Mechanic
Specialisation:	Small Engine Mechanic

Details	
Gender:	Male
Date of Birth:	27/05/1984
City:	Taungoo
Passport Number:	6688976
Country where I live:	Burma (Myanmar)
Country of passport issue:	Burma (Myanmar)
Country of Training:	Burma (Myanmar)
Skills Assessment Program:	457 or Offshore Skills Assessment Program
Finalisation Date:	25/09/2015

TradeSET Report

Name:	Myint Thu
TradeSET Number:	TS254341
My Trade:	Small Engine Mechanic
Specialisation:	Small Engine Mechanic

Skills Report

Mandatory Skills	Skilled
Apply safe working practices and be able to maintain a safe workplace.	Yes
Carry out fault-finding tasks.	Yes
Use environmental rules for the best practices in the workplace.	Yes

Elective Skills	Skilled
Apply knowledge to find and fix basic automotive problems.	Yes
Work well with others.	Yes
Communicate well with others in the workplace.	Yes
Remove and replace electrical and electronic parts.	Yes
Service, look after or fix batteries.	Yes
Carry out repairs to single electrical circuits.	Yes
Set up, test and fix low voltage wiring and lighting systems.	Yes
Set up, test and fix electrical security systems and parts.	Yes
Test and service outdoor powered equipment.	Yes
Carry out soldering of electrical wiring and circuits.	Yes
Fix electrical systems.	Yes
Repair instruments and warning systems.	Yes
Check and rebuild charging system alternators.	Yes
Repair charging systems.	Yes
Overhaul starting motors.	Yes
Repair starting systems.	Yes
Test and repair start up systems in vehicles and equipment such as motorcycles, outdoor power equipment or boats.	Yes
Fix electronic systems.	Yes
Check and fix electronic spark start-up engine management systems.	Yes
Service engines and engine parts for outdoor power equipment.	Yes
Service and fix problems in rotary cutting systems.	Yes
Service and fix problems in drum cutting systems.	Yes
Service and fix problems in chainsaw cutting systems.	Yes
Remove, fit and change line trimming parts.	Yes

Elective Skills	Skilled
Service and fix problems in post-boring parts.	Yes
Service and fix problems in post hole digging systems.	Yes
Service and fix problems in reciprocating cutting systems.	Yes
Service pumping systems in outdoor power equipment.	Yes
Fix engines and engine parts for outdoor power equipment.	Yes
Test and service 240V portable generators.	Yes
Repair pumping systems.	Yes
Overhaul engines and engine parts for outdoor power equipment.	Yes
Carry out a service.	Yes
Select and use bearings, seals, gaskets, sealants and adhesives.	Yes
Remove and fit engine parts.	Yes
Check engines and fix any problems you find.	Yes
Carry out a service on a diesel fuel injection systems.	Yes
Repair the parts in an exhaust system.	Yes
Machine brake drums and brake disc rotors.	Yes
Check and fix suspension systems.	Yes
Balance wheels and tyres.	Yes
Read and understand engineering drawings used in the industry.	Yes
Use and maintain measuring equipment.	Yes
Use and look after workplace tools and equipment.	Yes
Repair diesel fuel systems.	Yes
Set up, test and use manual metal arc welding procedures.	Yes
Carry out spot welding procedures.	Yes
Remove, fit and inspect wheel assemblies.	Yes
Repair and replace emission control systems.	Yes
Check and fix clutch assemblies and associated parts.	Yes
Put together and fit braking system parts.	Yes
Overhaul braking system and parts.	Yes
Overhaul diesel fuel injection systems.	Yes
Check, service and fix other braking systems.	Yes
Overhaul engines and engine parts.	Yes
Completely change the clutch parts in a vehicle or machine.	Yes

Skills Assessment Plan

Australian Qualification

Code:	AUR30711
Name:	Outdoor Power Equipment

My Skills and Evidence

Mandatory Skills	Tasks
<p>Work: Apply safe working practices and be able to maintain a safe workplace.</p> <p>Unit of Competency Code: AURC270103A</p> <p>Unit Title: Apply safe working practices</p>	<ul style="list-style-type: none"> - Apply basic safety procedures - Apply emergency procedures
<p>Work: Carry out fault-finding tasks.</p> <p>Unit of Competency Code: AURT366108A</p> <p>Unit Title: Carry out diagnostic procedures</p>	<ul style="list-style-type: none"> - Prepare to diagnose faults - Apply technology to isolate fault(s) - Recommend rectification method(s) - Component/equipment is prepared for customer use
<p>Work: Use environmental rules for the best practices in the workplace.</p> <p>Unit of Competency Code: AURC272003A</p> <p>Unit Title: Apply environmental regulations and best practice in a workplace or business</p>	<ul style="list-style-type: none"> - Identify environmental regulations - Identify hazards to stormwater - Identify hazards to air quality - Identify noise hazards

Evidence I can provide

- Qualification / Certificate

Elective Trade Skills	Tasks
<p>Work: Apply knowledge to find and fix basic automotive problems.</p> <p>Unit of Competency Code: AURC252103A</p> <p>Unit Title: Apply basic automotive troubleshooting processes</p>	<ul style="list-style-type: none"> - Identify nature of the fault or problem - Apply basic troubleshooting processes
<p>Work: Work well with others.</p> <p>Unit of Competency Code: AURC270688A</p> <p>Unit Title: Work effectively with others</p>	<ul style="list-style-type: none"> - Contribute to determination of work roles - Contribute to planning of activities - Organise and accept responsibility for own workload - Maintain enterprise dress and grooming standards - Work with others - Participate in identifying and meeting own development needs - Work effectively and responsibly
<p>Work: Communicate well with others in the workplace.</p> <p>Unit of Competency Code: AURC270789A</p> <p>Unit Title: Communicate effectively in the workplace</p>	<ul style="list-style-type: none"> - Write routine texts - Read routine documents - Contribute to workplace communications - Apply basic computer skills - Operate workplace telephone systems
<p>Work: Remove and replace electrical and electronic parts.</p> <p>Unit of Competency Code: AURE218664A</p> <p>Unit Title: Remove and replace electrical/electronic units/assemblies</p>	<ul style="list-style-type: none"> - Prepare for work - Remove electrical/electronic units/assemblies - Replace electrical/electronic units/assemblies - Clean up work area and maintain equipment
<p>Work: Service, look after or fix batteries.</p> <p>Unit of Competency Code: AURE218670A</p> <p>Unit Title: Service, maintain or replace batteries</p>	<ul style="list-style-type: none"> - Prepare to inspect battery - Conduct battery test - Service batteries - Remove and replace battery - Prepare vehicle/equipment for delivery to customer and/or storage
<p>Work: Carry out repairs to single electrical circuits.</p> <p>Unit of Competency Code: AURE218708A</p> <p>Unit Title: Carry out repairs to single electrical circuits</p>	<ul style="list-style-type: none"> - Prepare for work - Test circuits/components and identify faults - Complete repairs to circuit wiring - Clean up work area and maintain equipment

Elective Trade Skills	Tasks
<p>Work: Set up, test and fix low voltage wiring and lighting systems. Unit of Competency Code: AURE219331A Unit Title: Install, test and repair low voltage wiring/lighting systems</p>	<ul style="list-style-type: none"> - Prepare for work - Install wiring/lighting electrical systems - Repair electrical systems - Test electrical systems - Clean up work area and maintain equipment
<p>Work: Set up, test and fix electrical security systems and parts. Unit of Competency Code: AURE219431A Unit Title: Install, test and repair electrical security systems/components</p>	<ul style="list-style-type: none"> - Prepare for work - Install electrical security system components - Repair electrical security systems/components - Test electrical security systems/components - Clean up work area and maintain equipment
<p>Work: Test and service outdoor powered equipment. Unit of Competency Code: AURE222976B Unit Title: Test and service outdoor powered equipment</p>	<ul style="list-style-type: none"> - Preparation for test - Conduct test and analyse results - Prepare to service equipment - Carry out equipment service - Prepare equipment for delivery to customer
<p>Work: Carry out soldering of electrical wiring and circuits. Unit of Competency Code: AURE224008A Unit Title: Carry out soldering of electrical wiring/circuits</p>	<ul style="list-style-type: none"> - Prepare for work - Prepare components/wiring/circuits, tooling and equipment for soldering - Carry out soldering of components/wiring/circuits - Clean up work area and maintain equipment
<p>Work: Fix electrical systems. Unit of Competency Code: AURE318866A Unit Title: Repair electrical systems</p>	<ul style="list-style-type: none"> - Prepare for work - Test systems/components and identify faults - Repair electrical systems - Clean up work area and maintain equipment
<p>Work: Repair instruments and warning systems. Unit of Competency Code: AURE318966A Unit Title: Repair instruments and warning systems</p>	<ul style="list-style-type: none"> - Prepare for work - Test systems/components and identify faults - Repair instrument and warning systems and/or associated components - Clean up work area and maintain equipment

Elective Trade Skills	Tasks
<p>Work: Check and rebuild charging system alternators. Unit of Competency Code: AURE319145A Unit Title: Overhaul charging system alternators</p>	<ul style="list-style-type: none"> - Prepare for work - Dismantle alternator and clean individual components/parts - Inspect and test alternator components/parts - Overhaul and reassemble alternator and components/parts - Clean up work area and maintain equipment
<p>Work: Repair charging systems. Unit of Competency Code: AURE319166B Unit Title: Repair charging systems</p>	<ul style="list-style-type: none"> - Prepare for work - Test systems/components and identify faults - Repair charging systems and/or associated components - Clean up work area and maintain equipment
<p>Work: Overhaul starting motors. Unit of Competency Code: AURE319245A Unit Title: Overhaul starting motors</p>	<ul style="list-style-type: none"> - Prepare for work - Dismantle starting motors and clean individual components/parts - Inspect and test starting motor components/parts - Overhaul and reassemble starting motors and fit replacement components/parts - Clean up work area and maintain equipment
<p>Work: Repair starting systems. Unit of Competency Code: AURE319266B Unit Title: Repair starting systems</p>	<ul style="list-style-type: none"> - Prepare for work - Test systems/components and identify faults - Repair starting systems and/or associated components - Clean up work area and maintain equipment
<p>Work: Test and repair start up systems in vehicles and equipment such as motorcycles, outdoor power equipment or boats. Unit of Competency Code: AURE320666B Unit Title: Repair ignition systems</p>	<ul style="list-style-type: none"> - Prepare for work - Test ignition systems/components and identify faults - Repair ignition systems/components - Clean up work area and maintain equipment

Elective Trade Skills	Tasks
<p>Work: Fix electronic systems. Unit of Competency Code: AURE321066A Unit Title: Repair electronic systems</p>	<ul style="list-style-type: none"> - Prepare for work - Test systems/components and identify faults - Repair electronic systems - Clean up work area and maintain equipment
<p>Work: Check and fix electronic spark start-up engine management systems. Unit of Competency Code: AURE321171A Unit Title: Service and repair electronic spark ignition engine management systems</p>	<ul style="list-style-type: none"> - Prepare for work - Test control system, diagnose faults and determine service/repair requirements - Service/repair spark ignition engine management systems - Clean up work area and maintain equipment
<p>Work: Service engines and engine parts for outdoor power equipment. Unit of Competency Code: AURP201570B Unit Title: Service engines and associated engine components (outdoor power equipment)</p>	<ul style="list-style-type: none"> - Prepare to service two and four stroke engines - Service engines and engine components - Prepare engines for delivery to customer
<p>Work: Service and fix problems in rotary cutting systems. Unit of Competency Code: AURP245171B Unit Title: Service and repair faults in rotary cutting systems</p>	<ul style="list-style-type: none"> - Prepare to undertake service and repair functions - Determine service and repair requirements - Obtain authorisation to proceed with service and repair - Remove components, rectify faults and fit components - Check rotary cutting system for normal operation - Return rotary cutting system to customer service
<p>Work: Service and fix problems in drum cutting systems. Unit of Competency Code: AURP245271B Unit Title: Service and repair faults in drum cutting systems</p>	<ul style="list-style-type: none"> - Prepare to undertake service and repair functions - Determine repair requirements - Remove components, rectify faults and fit components - Check drum cutting system for normal operation - Return drum cutting system to customer service

Elective Trade Skills	Tasks
<p>Work: Service and fix problems in chainsaw cutting systems.</p> <p>Unit of Competency Code: AURP245371B</p> <p>Unit Title: Service and repair chainsaw cutting systems</p>	<ul style="list-style-type: none"> - Prepare to undertake service and repair functions - Determine service and repair requirements for the chainsaw cutting system - Obtain authorisation to proceed with service and repair - Service and repair chainsaw cutting system - Check chainsaw cutting system for normal operation - Return chainsaw cutting system to customer service
<p>Work: Remove, fit and change line trimming parts.</p> <p>Unit of Competency Code: AURP245465B</p> <p>Unit Title: Remove, fit and adjust line trimming system components</p>	<ul style="list-style-type: none"> - Prepare to undertake work on line trimming systems - Determine customer requirements - Remove and fit line trimming system components - Return line trimming system to customer service - Complete work and return unit to customer
<p>Work: Service and fix problems in post-boring parts.</p> <p>Unit of Competency Code: AURP245571B</p> <p>Unit Title: Service and repair faults in post-boring systems</p>	<ul style="list-style-type: none"> - Prepare to undertake service and repair post-boring equipment - Determine repair requirements - Plan repair procedure - Remove components, rectify faults and fit components - Check repaired post-boring system for normal operation - Return repaired post-boring system to customer service
<p>Work: Service and fix problems in post hole digging systems.</p> <p>Unit of Competency Code: AURP245671B</p> <p>Unit Title: Service and repair faults in post hole digging systems</p>	<ul style="list-style-type: none"> - Prepare to service and repair post hole digging systems - Determine repair requirements - Plan repair procedure - Remove components, rectify faults and fit components - Check repaired post hole digging system for normal operation - Return repaired post hole digging system to customer service

Elective Trade Skills	Tasks
<p>Work: Service and fix problems in reciprocating cutting systems.</p> <p>Unit of Competency Code: AURP245771B</p> <p>Unit Title: Service and repair faults in reciprocating cutting systems</p>	<ul style="list-style-type: none"> - Prepare to undertake service and repair functions - Determine repair requirements - Plan repair procedure - Remove components, rectify faults and fit components - Check repaired reciprocating cutting system for normal operation - Return reciprocating cutting system to customer service
<p>Work: Service pumping systems in outdoor power equipment.</p> <p>Unit of Competency Code: AURP247670B</p> <p>Unit Title: Service pumping systems</p>	<ul style="list-style-type: none"> - Prepare to undertake test - Conduct test and analyse results - Prepare to service pumping systems - Carry out service requirements to pumping systems - Prepare pumping system for delivery to customer
<p>Work: Fix engines and engine parts for outdoor power equipment.</p> <p>Unit of Competency Code: AURP301566B</p> <p>Unit Title: Repair engines and associated engine components (outdoor power equipment)</p>	<ul style="list-style-type: none"> - Prepare to repair small engines - Repair engines and engine components - Prepare engines for delivery to customer or installation
<p>Work: Test and service 240V portable generators.</p> <p>Unit of Competency Code: AURP322776B</p> <p>Unit Title: Test and service 240V portable generators</p>	<ul style="list-style-type: none"> - Prepare to undertake a load test - Conduct load test and analyse results - Prepare to service generator - Carry out generator service - Prepare generator for delivery to customer
<p>Work: Repair pumping systems.</p> <p>Unit of Competency Code: AURP347666B</p> <p>Unit Title: Repair pumping systems</p>	<ul style="list-style-type: none"> - Prepare to undertake test - Conduct tests and analyse results - Prepare to repair pump - Carry out pump repair - Prepare pump for delivery to customer
<p>Work: Overhaul engines and engine parts for outdoor power equipment.</p> <p>Unit of Competency Code: AURP401245B</p> <p>Unit Title: Overhaul engines and associated engine components (outdoor power equipment)</p>	<ul style="list-style-type: none"> - Prepare to carry out engine overhaul - Dismantle engine and components - Overhaul engine and components - Assemble engine and components - Check engine operation - Prepare engine for delivery to customer or installation

Elective Trade Skills	Tasks
<p>Work: Carry out a service. Unit of Competency Code: AURT200108A Unit Title: Carry out servicing operations</p>	<ul style="list-style-type: none"> - Prepare to undertake servicing operations - Apply correct lubricants and/or fluids handling techniques - Carry out servicing operations - Prepare vehicle for use or storage
<p>Work: Select and use bearings, seals, gaskets, sealants and adhesives. Unit of Competency Code: AURT200368A Unit Title: Select and use bearings, seals, gaskets, sealants and adhesives</p>	<ul style="list-style-type: none"> - Prepare to select and use bearings, seals, gaskets, sealants and adhesives - Select and use sealants - Prepare to install bearings, seals and gaskets - Carry out installation of bearings, seals and gaskets - Prepare vehicle/component for use or storage
<p>Work: Remove and fit engine parts. Unit of Competency Code: AURT201164A Unit Title: Remove and install engine assemblies</p>	<ul style="list-style-type: none"> - Prepare to remove engine assemblies - Carry out the removal of engine assemblies - Install engine assemblies - Prepare vehicle/equipment for use or storage
<p>Work: Check engines and fix any problems you find. Unit of Competency Code: AURT201170A Unit Title: Inspect and service engines</p>	<ul style="list-style-type: none"> - Prepare to undertake the inspection of engines - Conduct engine system inspections and analyse results - Prepare to service engines - Carry out servicing - Prepare vehicle for use or storage
<p>Work: Carry out a service on a diesel fuel injection systems. Unit of Competency Code: AURT203670B Unit Title: Service diesel fuel injection systems</p>	<ul style="list-style-type: none"> - Prepare to service diesel fuel system components - Carry out service - Prepare equipment/engine for use or storage
<p>Work: Repair the parts in an exhaust system. Unit of Competency Code: AURT205166A Unit Title: Repair exhaust system components</p>	<ul style="list-style-type: none"> - Prepare to undertake repairs to exhaust systems/components - Remove, repair and replace faulty exhaust components - Prepare vehicle/equipment for use or storage

Elective Trade Skills	Tasks
<p>Work: Machine brake drums and brake disc rotors. Unit of Competency Code: AURT210736A Unit Title: Machine brake drums and brake disc rotors</p>	<ul style="list-style-type: none"> - Prepare to machine drums and rotors - Machine brake drums and brake disc rotors - Test machined component(s) - Prepare components for use or storage
<p>Work: Check and fix suspension systems. Unit of Competency Code: AURT216170A Unit Title: Inspect and service suspension systems</p>	<ul style="list-style-type: none"> - Prepare to inspect and service suspension systems and associated components - Conduct inspection and analysis - Carry out service - Prepare vehicle/equipment for use or storage
<p>Work: Balance wheels and tyres. Unit of Competency Code: AURT217606A Unit Title: Balance wheels and tyres</p>	<ul style="list-style-type: none"> - Prepare to balance tyres and wheels - Conduct inspection and analyse results - Carry out balancing procedures - Prepare equipment for customer and/or storage
<p>Work: Read and understand engineering drawings used in the industry. Unit of Competency Code: AURT225156A Unit Title: Read and interpret engineering drawings</p>	<ul style="list-style-type: none"> - Prepare for work - Read and interpret engineering drawings - Clean up work area and maintain equipment
<p>Work: Use and maintain measuring equipment. Unit of Competency Code: AURT225667A Unit Title: Use and maintain measuring equipment</p>	<ul style="list-style-type: none"> - Prepare to undertake measurements - Conduct measurements and analyse results - Maintain measuring equipment
<p>Work: Use and look after workplace tools and equipment. Unit of Competency Code: AURT270278A Unit Title: Use and maintain workplace tools and equipment</p>	<ul style="list-style-type: none"> - Select correct tooling and equipment for workplace application - Use of tooling and equipment - Service and maintain workplace tooling and equipment - Store and secure tooling and equipment

Elective Trade Skills	Tasks
<p>Work: Repair diesel fuel systems. Unit of Competency Code: AURT303666A Unit Title: Repair diesel fuel systems</p>	<ul style="list-style-type: none"> - Prepare to repair diesel fuel system components - Test fuel systems and analyse results - Repair fuel system - Prepare vehicle/equipment for use or storage
<p>Work: Set up, test and use manual metal arc welding procedures. Unit of Competency Code: AURV281108A Unit Title: Carry out manual metal arc welding procedures</p>	<ul style="list-style-type: none"> - Prepare for work - Carry out manual metal arc procedures - Clean up work area and maintain equipment
<p>Work: Carry out spot welding procedures. Unit of Competency Code: AURV281508A Unit Title: Carry out spot welding procedures</p>	<ul style="list-style-type: none"> - Prepare for work - Carry out spot welding procedures - Clean up work area and maintain equipment
<p>Work: Remove, fit and inspect wheel assemblies. Unit of Competency Code: AURT217665A Unit Title: Remove, fit and inspect wheel assemblies</p>	<ul style="list-style-type: none"> - Prepare for work - Remove wheel assemblies for inspection - Fit wheel assemblies - Prepare wheel assemblies for use or storage
<p>Work: Repair and replace emission control systems. Unit of Competency Code: AURT304666A Unit Title: Repair and replace emission control systems</p>	<ul style="list-style-type: none"> - Prepare to undertake repair of emission control system - Repair and replace emission control systems and/or associated components - Prepare vehicle/equipment for delivery to customer after repair is completed
<p>Work: Check and fix clutch assemblies and associated parts. Unit of Competency Code: AURT306170A Unit Title: Inspect, service and/or repair clutch assemblies and associated operating system components</p>	<ul style="list-style-type: none"> - Prepare to undertake servicing and repair of clutch assemblies - Test clutch and assembly systems - Carry out service and/or repair - Prepare vehicle/equipment for use or storage

Elective Trade Skills	Tasks
<p>Work: Put together and fit braking system parts. Unit of Competency Code: AURT310104A Unit Title: Assemble and fit braking systems/components</p>	<ul style="list-style-type: none"> - Prepare to assemble and fit braking system components - Assemble and fit braking system/components - Test braking system components and analyse results - Prepare braking system components for use or storage
<p>Work: Overhaul braking system and parts. Unit of Competency Code: AURT410145AA Unit Title: Overhaul braking system components (light)</p>	<ul style="list-style-type: none"> - Prepare to overhaul braking system components - Overhaul braking system components/sub-assemblies - Conduct serviceability tests on components - Prepare brake components for use and/or storage
<p>Work: Overhaul diesel fuel injection systems. Unit of Competency Code: AURT403645A Unit Title: Overhaul diesel fuel injection systems</p>	<ul style="list-style-type: none"> - Prepare to undertake the overhaul of diesel fuel injection system components - Test diesel fuel injection systems - Overhaul diesel fuel injection systems - Prepare vehicle/system for customer and/or storage
<p>Work: Check, service and fix other braking systems. Unit of Competency Code: AURT310171A Unit Title: Inspect, service and repair auxiliary braking systems</p>	<ul style="list-style-type: none"> - Prepare to inspect auxiliary braking system - Conduct inspection and analyse results - Prepare to service and repair auxiliary braking system - Service and repair of auxiliary braking system - Prepare auxiliary braking system for delivery to customer or storage
<p>Work: Overhaul engines and engine parts. Unit of Competency Code: AURT401145A Unit Title: Overhaul engines and associated engine components</p>	<ul style="list-style-type: none"> - Prepare to carry out engine overhaul - Dismantle engine and components - Overhaul engine components - Assemble engine and components - Check engine operation - Prepare engine for delivery to customer or installation

Elective Trade Skills	Tasks
<p>Work: Completely change the clutch parts in a vehicle or machine.</p> <p>Unit of Competency Code: AURT406145A</p> <p>Unit Title: Overhaul clutch assemblies</p>	<ul style="list-style-type: none">- Prepare to undertake the overhaul of clutch assemblies- Test clutch assemblies and analyse results- Carry out the overhaul of clutch assemblies- Prepare vehicle/equipment for use or storage

Evidence I can provide

- Qualification / Certificate
